# From the Head of School

Dear Prospective Families,

Thank you for considering The Calverton School. We are a leader among college preparatory schools - committed to maximizing student potential and preparing students to become global citizens.

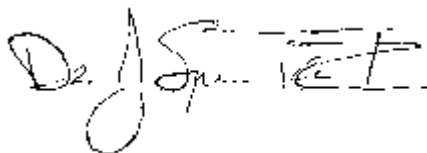

I always enjoy meeting new students in our residential program. Some arrive from short distances, while others have traveled from afar. What is so unique is their ability to collaborate with individuals from different cultures and customs while focusing on the common goal of college admissions. The Calverton School prides itself on being a global community with students from many different countries and cultural backgrounds.

Our residential program is designed to be small to allow individualized attention to each student's academic progress, while providing unique opportunities to interact with our day students and their families. I am very proud of our school. It is a family. It is a place where students thrive in academics, arts, athletics, and civil responsibility. It is an amazing community that cares deeply about each student's success.

We have a tradition here at the Calverton School— every morning, each student is greeted with a handshake. It is the foundation of our Philosophy of Honor. It demonstrates our commitment to every student, from destinations both near and far.

I invite you to discover our residential program and see why a handshake is just the start to an exciting and engaging college preparatory program.

Dr. Spencer Taintor IV  
Head of School

Kenny Wu, Class of 2016  
Spring Musical Production

Come make memories with us!

# Academics

The Calverton School has both five-day (U.S. students only) and seven-day residential opportunities for students.

Students collaborate with faculty in a rigorous academic environment that is consistent with the expectations of the most respected colleges and universities.

Some of the many benefits of our program include:

- A highly individualized education
- A focus on academic and social progress for each student
- The chance to speak, understand, read and write in English
- Life-long friendships with students from around the world
- Real-life experiences in the Washington, DC Region
- A comprehensive college guidance counseling program
- Arts, Athletics, and Community Service Opportunities

Calverton teachers take a personal interest in each student and help them adjust to residential life on campus. Our teachers are focused on continuous growth and superior education. Each student is assigned an academic advisor, in addition to their college counselor, Dean of Students, and the Head of the Upper School, who identifies individual student strengths and opportunities for growth.

With the help of a college counseling process that begins as early as Grade Nine, students from Calverton are accepted at prestigious colleges and universities in the United States (see back cover for more information).

*The Calverton School is proud to be an Authorized International Baccalaureate World School, offering the IB Diploma Programme.*

# Accommodations

Residences at The Calverton School are located on campus in our One World Residential Village, designed to provide a home away from home with its traditional architecture and design. There are four homes in which students reside: Chesapeake House, Potomac House, Patuxent House, and James House.

Each home has a House Parent who lives with the students, helping them in their daily routines. Rooms are modern, comfortable and generally shared with one other student.

Additionally, other amenities include:

- Internet Access /WiFi
- Telephone
- Satellite TV
- Common Room
- Game Room
- Kitchen/Laundry Facilities
- Quiet Study Areas
- Access to the schools online research databases
- Basketball/Tennis Courts/Running Trails
- Swimming Facilities (off-campus)

*(Above) Students take advantage of the fitness center, located in Potomac House.*

*(Left) Residential Students enjoying conversation and community around the fire-pit.*

# Care and Welfare

## Support & Guidance

Through a combination of informal and formal structure and guidance, new residential students quickly establish friendships that span the globe, and last a lifetime. Even before school starts, our residential students participate in orientation activities to help them make friends and adapt quickly to their new environment. Under the direct supervision of the Director of Residence Life, our House Parents live alongside the students to ensure their comfort and well being. At all times our staff is available to offer students any advice and support they need, be it academic or personal.

## Security & Supervision

The safety of our students is a primary concern and something we take extremely seriously. Our campus employs both active and passive security measures. The Calverton School is patrolled by at least one security officer as well as surveillance cameras.

## Activities

We provide a wide variety of extracurricular and social activities so that every student has the opportunity to make friends and pursue personal interests.

On school days, our boarding students take part in their preferred sport or activity, taking advantage of Calverton's fine arts, clubs/societies and/or athletic programs, which include the following sports:

- Soccer, girls and boys*
- Field Hockey, girls*
- Volleyball, girls*
- Cheerleading*
- Cross Country, co-ed*
- Golf, co-ed*
- Basketball, girls and boys*
- Lacrosse, girls and boys*
- Softball, girls*
- Tennis, co-ed*

Weekend programs include exciting off-campus adventures that change in line with our students' interests. Trips include visits to Georgetown, Washington DC, Baltimore and Annapolis.

## Meals

Meals are provided for all boarding students. Boarding students eat meals together in our Dining Hall. We accommodate a wide range of dietary needs and requirements, and we also provide opportunities for our boarding students to dine out occasionally as part of regularly scheduled social activities.

*Residential Students on a weekend getaway to Hershey Park, an amusement park located in Hershey, Pennsylvania.*

*A group of students visiting Princeton University. This college "road trip" weekend also included a stop at Villanova University.*
