

The Calverton School

2026-2027 Summer Work

Integrated Science 1 – Accelerated Physics and Chemistry

Complete the summer work for math, reviewing algebra, to be prepared for 9th-grade science. Make sure you know how to graph and find a slope, rearrange and solve equations, and operate on fractions and decimals. Physics and chemistry will be much easier if you are confident in your math.

Go to <https://education.ti.com/en-au/resources/getting-started-with-ti-technology/student-course-lessons-ti-84-plus-ce>

Try lessons 1,2, 5,6, 7, 13, and 14 to learn how to use your calculator for calculations needed for physics. You can try the other lessons if you would like. Your calculator can do a lot of useful things.
